

## Training Advisory

### UPCOMING COURSE QUOTA SUBMISSION INFORMATION

**Environmental Law Update Course, *Virtually*** from Maxwell AFB, AL, 8-9 October 2024

**Course Description—** ELUC is a standalone course with a focus solely on recent updates and issues in environmental law and policy applicable to all Department of Defense (DoD) and Military Department activities. ELUC is intended for experienced environmental practitioners or those attorneys whose full-time duties primarily involve providing environmental legal advice at the installation level (and higher).

Presenters will be drawn from across the DoD, and all military environmental law practitioners are encouraged to attend. We will ask the ELUC presenters to cross-check with their Service counterparts to ensure that the materials are comprehensive and not single Service-centric. Additionally, this sets the stage for hopefully even greater interservice engagements across our environmental law portfolios and missions.

ELUC will be presented virtually via Teams from 0800 to 1500 on 8-9 October 2024. Continuing Legal Education credits, including Professional Responsibility, will be available in coordination with the Air Force Judge Advocate General School.

This year's ELUC topics include: Mission Sustainment, NEPA, Cultural Resources, Natural Resources, Restoration, PFAS, Clean Air Act, Clean Water Act/Safe Drinking Water Act, Overseas Operations, Energy, Supreme Court Updates (Loper Bright, Corner Post, Jarkesy, WV v. EPA), Litigation Updates – all Services, and Professional Responsibility.
